

NOI 2020 C++ Basics Course Assignments

Assignment 2

Upto note 5

Task 1

Create an array of length 5 and of type int and initialize it with following values in the given order.

45,34,65,76,98

Task 2

Write a program to display users to enter the size for an array (eg: Enter size of the array) , read user input for array size and then create an array of that size and of type int.

Task 3

Write a program that declares an array of length 5. Initialize the array with user input values. Ask the user to enter an index and then display the value at that index.
